RIDER

WITHOUT THE RIDER, THE BIKE IS GOING NOWHERE.

The feeling of comfort and safety is the key to the ultimate biking experience. Thanks to Kellys and KLS products dedicated by riders to riders, in addition to safety and comfort, you will receive high functionality, modern materials and a unique style. Get ready - the adventure awaits!

RIVAL 2
JERSEY SHORT SLEEVE

Rival 2 is premium short sleeve jersey made in a panel cut for maximal freedom of movement and comfort. Combination of high quality fabrics provides second skin feeling with high ventilation and moisture control. The jersey has a full-length zipper, and it has 3 pockets and one zipper pocket on the back side. Rival 2 jersey with elegant design added by smart reflective printing will keep you pedaling for hours.

COLORS_ blue, light
SIZES_ S, M, L, XL, XXL

TYRION 2
MTB JERSEY

Tyrion 2 lite is an ultra-light MTB jersey created in a comfortable fit, designed to be worn while mountain biking. Thanks to the quality, highly breathable and quick-drying fabric, this jersey is also perfect for longer rides in warm weather.

COLORS_ green, black
SIZES_ S, M, L, XL, XXL

STOKE
ENDURO / MTB SHORTS

Elegant and comfortable, Kellys Stoke MTB shorts are made of lightweight 4 - way stretch durable material ActivDry+ ensuring freedom of movement when biking. The internal width adjusting system on the waist and detachable inner shorts with antibacterial padding ensure a perfect fit and high comfort.

COLORS_ black
SIZES_ S, M, L, XL, XXL

AMOS
BASE LAYER

The first layer Kellys Amos is designed for warm summer rides. It ensures high breathability and effective moisture wicking. It works to keep you dry and regulate body temperature even during the long rides in hot weather. Amos is made of a fine microfiber and feels like a second skin on the body.

COLORS_ white
SIZES_ S, M, L, XL, XXL

RIVAL 2
BIBSHORT

Rival 2 multi-panel bibshorts are made of durable and breathable polyamide microfiber ensuring high comfort and optimal moisture and heat control. The bibshort straps are made of quality perforated material providing a second skin feeling. Anti-slip silicone application hold bibshorts in the right position. Antibacterial multi-level padding and smart reflective printing provide you with the best comfort and visibility.

COLORS_ black
SIZES_ S, M, L, XL, XXL

VULCANO
BIBSHORT

Vulcano unisex bib shorts are made of durable, functional Italian material. With anatomical construction and high quality fabric they ensure high comfort and optimal moisture and heat control. External pocket made of light yet durable mesh is practical companion during the ride. The elastic straps are made of mesh for lightness and breathability and provide a second-skin feeling. Anti-slip silicone application hold bibshorts in the right position. Antibacterial multi-level padding and smart reflective printing provide you with the best comfort and visibility.

COLORS_ black
SIZES_ XS, S, M, L, XL, XXL

MADDIE 3

WOMENS JERSEY

Maddie 3 cycling jersey is made of high-quality Italian functional fabric. It is light, breathable and comfortable. It has a tight-fit cut with slightly extended sleeves and three back pockets. The jersey has a quality YKK locking zipper for high comfort (it's easy to operate with one hand, does not move while riding). It's complemented by reflective elements for higher visibility and safety.

COLORS _ meadow, mist, fancy, flare

SIZES _ S, M, L, XL, XXL

MADDIE 3

TIGHTS SHORT

Maddie 3 cycling tights are made of durable functional Italian fabric. With anatomical construction and a raised waist for perfect fit and high comfort. Maddie 3 has antibacterial anatomically shaped padding and reflective prints for great visibility and safety.

LEVITATE

ENDURO / MTB SHORTS

Sporty comfortable, Levitate MTB shorts are made of lightweight, durable material ActivDry+ ensuring optimal heat and sweat control and quick drying. The material is 4-way stretch ensuring perfect fit and freedom of movement. The internal width adjusting system, special ergonomic fit designed for woman and higher back profile on the waist ensure a high comfort on and off the trails.

COLORS _ black

SIZES _ S, M, L, XL, XXL

FLAME

THERMAL JACKET

Kellys Flame is lightweight handy jacket which is ideal for riding in colder, windy days. It's made in comfortable fit with elastic hems, higher collar and extended back part for maximum comfort. Front panel is made of waterproof and waterrepellent fabric, while back part is made of thermal brushed polyester ensuring optimal body temperature and right breathability at the same time. The jacket has three pockets and one zipper pocket on the back. The distinctive color of the jacket contributes to the excellent visibility and safety.

COLORS_ red
SIZES_ S, M, L, XL, XXL

RIVAL 2 STAY VISIBLE

THERMAL JACKET

Kellys Rival 2 Stay visible jacket will be your top choice to compete against cold weather, wind and the rain. Bright color of the membrane jacket fabric will make you visible on the road even from the distance. This jacket is made of the ITTAI® thermal, windproof and water repellent material with excellent breathability. Jacket has back opening which keeps you ventilated during the ride. Thanks to the 3 back pockets you will have room to bring all belongings you need with you and you'll stay visible even in the dark with the reflective printing.

COLORS_ lime
SIZES_ S, M, L, XL, XXL

RIVAL 2 BLEND IN

THERMAL JACKET

Kellys Rival 2 Blend in jacket will be your top choice to compete against cold weather, wind and the rain. The neutral color of the jacket will make you disappear in the mists of colder days. This jacket is made of the ITTAI® thermal, windproof and water repellent material with excellent breathability. Jacket has back opening which keeps you ventilated during the ride. Thanks to the 3 back pockets you will have room to bring all belongings you need with you and you'll stay visible even in the dark with the reflective printing.

COLORS_ petrol
SIZES_ S, M, L, XL, XXL

SWAY

CYCLING GILET

Kellys Sway is a lightweight windproof gilet with a front water-repellent panel. It is made of functional membrane material in combination with highly breathable mesh on the back side. This gilet is an excellent investment for both casual and active cyclists. It is compact, easy to fold and store in a back pocket of the jersey when no needed. It is suitable for windy days or during descents.

COLORS_ black
SIZES_ S, M, L, XL, XXL

LEVANTE

ULTRALIGHT WINDPROOF CYCLING JACKET

Levante is Ultralight windproof jacket which is made of functional, durable rip-stop material (against tearing) and complemented by breathable parts, that ensure ideal ventilation while riding. It is compact and can be easily packed in its back pocket. The jacket is universal to be worn during downhill rides or during windy weather as a membrane layer. Windpack has one back pocket and reflective prints for great visibility and safety.

COLORS_ lime
SIZES_ S, M, L, XL, XXL

THERMO ISOWIND

BIBTIGHTS

The front part is made of the Isowind® windproof fabrics and the rear part from SuperRoubaix® super-stretch thermo fabric for colder and windy days. With or without a breathable and anti-bacterial Hygienic® multilevel padding. Reflective printing for your safety.

T

FRAME

All types of sun glasses are made of Grilamid TR90, which is characterized by an extremely high flexural strength, flexibility and lightweight. Grilamid TR90 also excellently resists weather conditions and the effects of UV radiation. This material therefore ensures a long frame durability even during high performance.

ANTI-SCRATCH COATING

All lenses are equipped with special surface treatment which increases scratch resistance.

ANTI-FOG COATING

This lens treatment prevents fogging for certain time to avoid reduced visibility.

ANTI-WATER COATING

Surface treatment improves off-take of water droplets. It helps to keep the vision clear and without any distortion.

POLYCARBONATE LENSES

These lenses are characterized by lightweight and depending on the finish also by high durability and scratch-resistance.

PHOTOCHROMIC LENSES

Photochromic lenses are made of Polycarbonate. Depending on the intensity of UV radiation the lenses will be darker. If the UV radiation is removed (indoors or inside the car), the lenses will return to their clear state. These lenses are recommended to use outdoor only.

POLARIZED LENSES

The sun light itself is not polarized – it becomes polarized after the impact on a shiny surface (snow, water surface or road), when the reflected waves oscillate in two levels – horizontal and vertical. Sunglasses with polarized filter allow only the positive vertically reflected rays to reach your eye. Looking through such sunglasses is comfortable, clear and without glare. The horizontal group of sun rays is blocked out by the polarized filter. These lenses allow a colorful vision, better visual clarity and notable relief for the eyes.

FILTER CATEGORY	TINT	USE	LIGHT TRANSMITTANCE	
			From %	To %
0	Clear / Very Light	Cloudy, Evening	80	100
1	Light Tint	Cloudy Conditions	43	80
2	Medium Tint	Regular Conditions	18	43

OUTRAGE PRO NEW HELMET

OUTRAGE PRO is a gravity helmet for riders expecting uncompromised performance and protection. Gravity riding requires top protection - this is why the safety was the key aspect when designing the all-new OUTRAGE. Triple inmold shell along with an extended back part and reinforced chassis provide top-of-the-line protection, so desired when riding hard. Coolmax padding and efficient ventilation system take care of a day-long comfort. OUTRAGE PRO is equipped with new AirGripSystem - adjustment system and Fidlock magnetic buckle for easy and fast fit. As many enduro riders use goggles, KLS new gravity helmet is equipped with goggle strap holder as well as adjustable two position visor with plenty of space underneath it for goggles. For additional safety, helmet is equipped with TWICEME chip.

AGS AIR GRIP SYSTEM

Introducing the AirGripSystem (AGS) - the innovative new adjusting system. With AGS, your helmet fits better than ever before, ensuring both enhanced safety and supreme comfort.

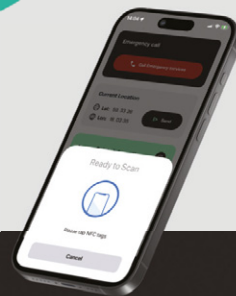

By creating a small gap between your head and the EPS, AGS prevents uncomfortable pressure points and potential injury from head-to-EPS contact. Not only does this advanced system prioritize your safety, but it also promotes superior airflow for a cooler, more enjoyable ride.

Experience the difference with AGS and enjoy a helmet that molds perfectly to your head, providing unparalleled protection and comfort every time you hit the trail.

TWICEME: WE TURN BYSTANDERS INTO HELPERS

Twiceme Help The Helpers (HTH) Technology protects you before and after an incident. Twiceme allows the wearer to upload medical information onto the equipment, making it possible for any bystander or rescuer to help the person in need. By tapping the Twiceme symbol displayed on the equipment with a smartphone, you can alert the relevant emergency services, relay precise location and access the wearer's medical ID.

Alert

Guidance to national & local rescue services for faster treatment. Alert friends or loved ones that you are lost or injured.

Locate

Share & send your location. Follow friends for a set period of time - such as a day on the mountain.

Identify

Tap the Twiceme symbol on the equipment to access critical information of an injured person.

Get started by downloading the app.

Look for this symbol

Hold your smartphone directly over the Twiceme Symbol displayed on the product to access the wearer's Medical ID.

NAVIGATOR

UNIVERSAL SMARTPHONE/ GPS HOLDER

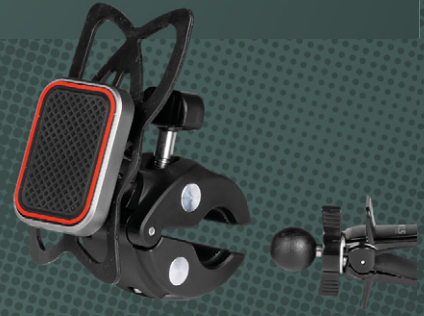

This holder is softly padded to protect phone surface. Bracket could be 360 degrees rotated. Navigator has toolless installation and its extendable arms can hold devices with the size up to 95 mm*185 mm.

CLICK

UNIVERSAL LIGHTWEIGHT STEM MOUNT

CLICK - stem mount is secure, low profile and lightweight. It's easy to mount by only adding it to your stem. The mount comes with the longer screw for right and secure installation and the universal 3M™ adhesive patch which attaches directly on to your smartphone. Thanks to KLS Click your phone is securely placed in the center of your vision and allows you to quickly access your sports app, messages or navigator.

LINK

UNIVERSAL SMARTPHONE HOLDER

Universal powerful bike magnetic mount 360° rotated. Quality rubber finish on the top of the mount together with rubber bands to secure the phone guarantee to keep your smartphone in place regardless of road vibrations or impacts. This magnetic mount in sleek and elegant design is easy to use and it comes with an extra mount for the car use in the packaging.

HUGGER ^{NEW}

UNIVERSAL SMARTPHONE HOLDER

Detachable elastic silicone mobile holder is simple yet effective solution to hold your phone secure and on place while riding. Its tough and stretchy silicone bands can be stretched to fit most of the phone sizes. It has toolless installation and soft surface. The phone can be easily detached from the base with a hidden lever on the bottom side.

CONTROL

UNIVERSAL LIGHTWEIGHT
ALUMINIUM SMARTPHONE HOLDER

Easily adjustable to various width of the smartphones from 55 to 100 mm. Thanks to the two adapters which are included in the package you can mount the holder to handlebars with a diameter of 31.8 mm, 25.4 mm and 22.2 mm. It has easy installation and the package include 4 anti slip stickers for extra secure grip.

SWIPE

WATERPROOF SMARTPHONE HOLDER

360° rotating holder for your smartphone which comes in two sizes - medium and large. The water resistant housing protects your smartphone against the rain but still offers touch screen functionality. Softly padded back side offers additional protection of your smartphone. KLS SWIPE could be 360° rotated.

Axle: Cr-Mo
Bearing: Ball bearing
SIZES_ 95 x 78 mm
WEIGHT_ 264 g

CLIPPER

PEDALS

Aluminum SPD Compatible pedal for MTB
One side SPD cleat, stable body platform on the other
Body: Aluminium
Axle: Cr-Mo
Bearing: Sealed
SIZES_ 105 x 66 mm
WEIGHT_ 366 g

FLAT 40 NEW

PEDALS

Aluminum low profile platform pedal without pins for E-bikes
Body: Die-cast aluminum with sand paper
Axle: CNC-machined Cr-Mo
Bearing: LSL Bushing and Sealed bearing System
SIZE_ 110 x 88 mm
WEIGHT_ 436g

FLAT 30

PEDALS

Aluminum low profile platform pedal for MTB/BMX
Body: Die-cast aluminum
Axle: Boron
Bearing: SPB (Smooth Polymer Bearing)
SIZES_ 113 x 110 mm
WEIGHT_ 425 g

FLAT 20

PEDALS

Plastic platform pedal for MTB/BMX
Body: Plastic
Axle: Boron
Bearing: SPB (Smooth Polymer Bearing)
SIZES_ 110 x 100 mm
WEIGHT_ 296 g

AL 7050

Strongest aluminum alloy, commonly used in rock-climbing equipment, hang glider frames, military, automotive and, of course, bicycle industry. Toughest material, but difficult to weld. That's why it is used mostly for Handle Bars only.

AL 6061

Aluminum alloy commonly used in home build or hobby aircraft, yacht constructions or scuba tanks. Provides very good ratio between strength and affordability.

DOUBLE BUTTED

2 thicknesses of material are combined to provide best of both - strength and lightweight. Where the material needs to stand against strong pressure, it is thickened to provide extra strength. On points where the material is not handling that much pressure, it is thinned to reduce unnecessary weight.

T6

process of increasing the material hardness by heating the material to a certain temperature for certain period of time. Times and temperatures may vary based on materials used. This process arranges atoms in molecular structures which greatly increase the strength of material. Also called "Aging Process"

3D FORGING

Solid block of heated aluminum is compressed into desired mould.

Advantage of this technology of forging is that no welding needs to be used, so the component is lighter and stronger in the end.

CNC

Computer Numerical Control - is the automation of tools through

commands which are entered in digital form. This means better precision and control over the tools. This also allows for more complicated shapes to be made, which otherwise wouldn't be possible by using the die-casting method. In the end the products can be "nicer", lighter (because CNC removes material from places where it is not needed), and which fits very precisely.

ICR

Routing of cable from dropper post to remote lever is done through bicycle frame. It improves overall aesthetics and lowers maintenance interval for cable. It is recommend to check compatibility of frame with this technology.

SWITCHFLOW

BICYCLE FLOOR PUMP

KLS SWITCHFLOW is a floor pump for every type of valve (Dunlop, Schrader and Presta). It's sturdy aluminium body makes pumping easy and safe. Thanks to large and precise manometer and ergonomic handle setting up the desired tyre pressure is easy and comfortable. On the top of that KLS SWITCHFLOW is equipped with hi-volume and hi-pressure switch - hi-volume for quick filling up the empty tyre, hi-pressure for setting the right pressure with ease.

AIRFLOW ONE

FLOOR PUMP

Alloy service pump with Airtank
Inflates tubeless ready tires
Switchable Schrader/Presta/
Dunlop
Ergonomic handle for comfortable
pumping
Stable die-cast base covered by
rubber for even better stability
Top mounted gauge

MAXIMUM PRESSURE_
240 psi / 18 bar

MAGNUM

FLOOR PUMP

Alloy floor pump
Pressure gauge
Dual head for Schrader/Presta/
Dunlop
Ergonomic handle with rubber
grip zones
Stable base

MAXIMUM PRESSURE_
160 psi / 11 bar

TWISTER PRO

FLOOR PUMP

Light weight plastic pump
Wider shaft for easy pumping
Dual head for Schrader/Presta/
Dunlop
Wide base for stability
Half-height big round gauge

MAXIMUM PRESSURE_
160 psi / 11 bar

TWISTER

FLOOR PUMP

Light weight plastic pump
Wider shaft for easy pumping
Dual head for Schrader/
Presta/Dunlop
Wide base for stability

MAXIMUM PRESSURE_
160 psi / 11 bar

DOUBLY PRO 50

ERGONOMIC ALLOY MINI PUMP

Dual head for Schrader/Presta/Dunlop
Telescopic
Ergonomic T-Lock handle
WEIGHT_ 153 g
LENGTH_ 265 mm
MAXIMUM PRESSURE_ 100 psi / 7 bar

DOUBLY PRO 30

ERGONOMIC ALLOY MINI PUMP

Dual head for Schrader/Presta/Dunlop
Ergonomic T-Lock handle
WEIGHT_ 137 g
LENGTH_ 265 mm
MAXIMUM PRESSURE_ 80 psi / 5 bar

DOUBLY PRO 10

ERGONOMIC PLASTIC MINI PUMP

Dual head for Schrader/Presta/Dunlop
Telescopic
Ergonomic T-Lock handle
WEIGHT_ 128 g
LENGTH_ 265 mm
MAXIMUM PRESSURE_ 100psi / 7 bar

CLASSIC

TRAVELPUMP

Aluminium alloy pump
Combination of minipump with performance of floor pump
Hose ergonomically nested in oval
Reversible head for Schrader/Presta valve
Foldable T-handle
Integrated metal pedestal, including frame bracket
WEIGHT_ 209 g
MAXIMUM PRESSURE_ 120 psi / 8 bar

DRIFT

MINIPUMP

Minipump suitable for MTB
Made by CNC technology
Patented auto switching dual head fits Schrader/Presta
Big barrel
LENGTH_ 215 mm
MAXIMUM PRESSURE_ 80 psi / 5 bar

OMNI

MINIPUMP

All in one mini pump
Shock/Schrader/Presta/Dunlop
Multi-directional hose
Bleeder for fine tuning pressure
Gauge for Bar/PSI reading
High pressure - Big volume switch
WEIGHT_ 218 g
LENGTH_ 260 mm
MAXIMUM PRESSURE_ 300 psi

AIRSHIFT NEW

MINIPUMP

Aluminium alloy mini pump
Clever Twin valve for all types of valves (Presta, Schrader and Dunlop)
Switchable mode for High Volume and High Pressure
CNC machined handle and barrel
LENGTH_ 190 mm
MAXIMUM PRESSURE_ 110Psi/8bar
WEIGHT_ 105 g

AIRJET NEW

MINIPUMP

Pocket size aluminium alloy mini pump
Clever Twin valve for all types of valves (Presta, Schrader and Dunlop)
Switchable mode for High Volume and High Pressure
Extractable hose with 90 degree connector
CNC machined handle and barrel
Soft material on barrel and top cap for comfortable touch
Easy storage in jersey pocket
LENGTH_ 150 mm
WEIGHT_ 105 g
MAXIMUM PRESSURE_ 110Psi/8bar

PULSE DUAL NEW

MINIPUMP

Plastic mini pump
Dual head for Presta and Schrader/Dunlop valves
Thumb lock lever
LENGTH_ 250 mm
WEIGHT_ 96 g
MAXIMUM PRESSURE_ 80Psi/5bar

COVERT

PUMP

Compact mini floor pump usable also as portable hand pump
 1" pop-out precise hideable gauge
 - sliding out by stepping down metal footpad
 18 mm alloy telescopic barrels for Big-Volume/Hi-Pressure modes
 Pinch-Free T-handle
 CNC valve core and cap
 Patented auto-switching Twin Head fits schrader/presta with thread for valve engagement
 Valve head with plugs against dust
LENGTH_ 300 mm
WEIGHT_ 216 g
MAXIMUM PRESSURE_ 120 psi / 8 bar

E-FLOW

NEW
ELECTRIC PUMP

Lightweight and portable mini electric pump
 Inflates 6 regular (28 inch) bikes tires in one charging cycle
 Cooling holes on the bottom of the pump to prevent overheating
 Pre-set pressure option and automatic stop
 360 degree rotating hose with Presta/Schrader valves
 Battery indicator
 USB port type C
SIZE_ 100mm x 65 x 38 mm
WEIGHT_ 350g
MAXIMUM PRESSURE_ 150psi/10bar

KINDLE

ERGONOMIC MINIPUMP

Compact and lightweight mini pump
 Plastic body and large ergonomic handle
 Universal pump head for all types of valves
 Thumb Lock system
 Including bracket
WEIGHT_ 100 g
LENGTH_ 240 mm
MAXIMUM PRESSURE_ 80 psi / 5 bar

SHOCKER 70

HIGH-PRESSURE PUMP

Alloy high pressure pump
 With pressure gauge
 Coverec fine tuning pressure bleeding valve
 Swivel hose for easy pumping
 Ergonomic handle
LENGTH_ 260 mm
WEIGHT_ 190 g
MAXIMUM PRESSURE_ 300 psi / 20 bar

SHOCKER 50

HIGH-PRESSURE PUMP

With pressure gauge
 Fine Tuning pressure bleeding valve
 2-stage non-leakage valve
 Swivel hose for easy pumping
 Plastic upper & lower handles
 Pinch-Free locked T-handle
LENGTH_ 260 mm
WEIGHT_ 190 g
MAXIMUM PRESSURE_ 300 psi / 20 bar

FLOWCONTROL

BICYCLE CO2 ADAPTOR

KLS FLOWCONTROL is a CO2 cartridge adaptor to pump repaired tyres/tubes. Thanks to flow valve it's easy to control the flow of CO2 to make pumping easy and safe.

BICYCLE CO2 CARTRIDGE
 KLS CO2 CARTRIDGE to pump repaired tyres/tubes. Fits KLS FLOWCONTROL.

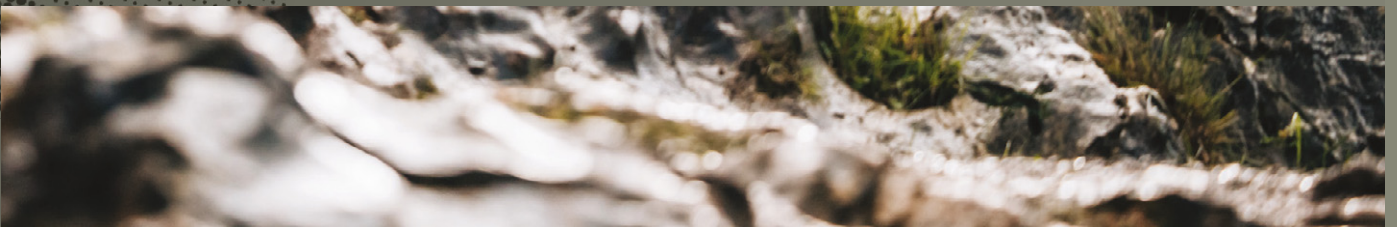

S E R I E S

SERVICE & CARE

TAKE CARE OF WHAT BRINGS YOU JOY.

The components of your bike are exposed to heavy loads and wear, especially during aggressive riding or in difficult conditions. To keep your bike ready for next adventure and give you as much joy as possible, proper service with the KLS top quality tools and lubricants is essential. Get ready for the next adventure!

KLS HANDY

BICYCLE MULTITOOl

HANDY is a multitool with everything necessary for longer ride. It is made of quality chrome vanadium steel (CR-V) and plastic.
Tool includes:

2 mm hex	3 mm hex	4 mm hex
5 mm hex	6 mm hex	8 mm hex
T25 Torx	Flat head screwdriver	Philips 2 head screwdriver
Chain quick link holder	2 pcs tire levers	Chain tool
Spoke wrench 3.33 / 3.45 / 3.55 / 4.20 mm		
Chain holder	Presta valve core tool	

ADROIT

FOLDING TOOL

Compact minitool with chain tool
Hardened chromevanadium steel (Cr-V)
19 functions, includes:

Chain tool with chain hook	Tire levers	2 mm hex
2.5 mm hex	3 mm hex	4 mm hex
5 mm hex	6 mm hex	8 mm hex
Box wrench 8 mm	Box wrench 9 mm	Box wrench 10 mm
Spoke wrench 3.2 / 3.3 / 3.5 mm		
T25 Torx	Philips head screwdriver	Flat head screwdriver

GUIDE

FOLDING TOOL

Compact, light weight (105,5 g) minitool with chain tool
Hardened chromevanadium steel (CR-V)
15 functions, includes:

Chain tool	2.5 mm hex	3 mm hex
4 mm hex	5 mm hex	6 mm hex
8 mm hex	Philips head screwdriver	
Flat head screwdriver		T25 torx
Spoke wrench 3.2 / 3.3 / 3.4 / 3.9 mm		
Mavic spoke wrench		

BARTOOL NEW

HANDLEBAR INSERT TOOL KIT

Handlebar insert tool kit which is crafted from durable aluminum alloy 6061 in combination with fiber plastic composite. Engineered to fit handlebars with inner diameters ranging from 18.5mm to 20.7mm, BARTOOL ensures compatibility with most of handlebars.

Chain tool 6-12 speed	2 mm hex	2.5 mm hex
3 mm hex	4 mm hex	5 mm hex
6 mm hex	8 mm hex	T10 Torx
T25 Torx	Flat head screwdriver	Philips head screwdriver
Spoke wrench 3.23 / 3.3 / 3.45 mm		
5 pcs 1.5x50 mm tubeless plug	Tubeless tire repair tool including application fork and file	

CHAINEY
FOLDING TOOL

Compact minitool with chain tool, hardened chromevanadium, steel (CR-V) hex keys
11 functions, includes:

2 mm hex	2.5 mm hex	3 mm hex
4 mm hex	5 mm hex	6 mm hex
8 mm hex	T25 torx	Chain tool
Philips head screwdriver		
Flat head screwdriver		

STINGER 10
FOLDING TOOL

Compact, small minitool, hardened chromevanadium steel (CR-V) hex keys
10 functions, includes:

2 mm hex	2.5 mm hex	3 mm hex
4 mm hex	5 mm hex	6 mm hex
8 mm hex	T25 torx	Philips head screwdriver
Flat head screwdriver		

COLORS _ grey, lime

STINGER 8
FOLDING TOOL

Compact, small minitool, hardened chromevanadium steel (CR-V) hex keys
8 functions, includes:

2 mm hex	3 mm hex	4 mm hex
5 mm hex	6 mm hex	8 mm hex
Philips head screwdriver		Flat head screwdriver

TOOLBOX XL
TOOL BOX 0,6L

Original KLS design. Wide bottleneck (63 mm) for easy access. Waterproof lid with steep thread for fast access. Standard 74 mm outer diameter, fits to regular bottle cages. Removable padding inside to avoid rattling. Suitable for tools, road tubes and other small necessities.

WEIGHT _ 82 g
COLORS _ black

TRYKER NEW TOOL SET

Tool set made of sturdy plastic in Y-shape with rough surface treatment for optimal grip. Double-sided magnetically attached bits, made from highly durable steel for extended lifespan.

2 mm hex	2.5 mm hex	3 mm hex
4 mm hex	5 mm hex	6 mm hex
8 mm hex	T20 Torx	T25 Torx
T30 Torx	Cross PH2 screwdriver	Flat SL4 screwdriver
Flat SL6 screwdriver		

TRIDENT ALLENKEYS

Plastic handle
Hardened chromevanadium steel (Cr-V) keys

4 mm hex	5 mm hex	6 mm hex
----------	----------	----------

SPIKE CHAIN TOOL

2 density ergonomic handle
Chain hook, replaceable pin
For IG / HG / UG chains

SPARTAN 15MM PEDAL WRENCH

Ergonomic handle
Manipulation angle for better handling
Hardened chromevanadium steel (Cr-V)
15 mm box wrench

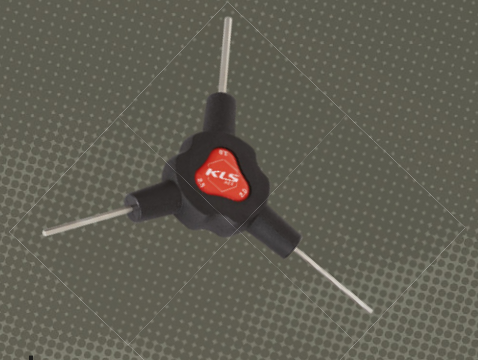

JACK 10 TIRE LEVERS

3 piece set of plastic levers
Large handle provides high leverage, spoke hook

YPSI HEX SMALL
ALLENKEYS

YPSI HEX small is tool with 3 Allen keys in sizes 2 / 2,5 / 3 mm. High-quality CR-V steel. Sand blasted finished for firm grip.

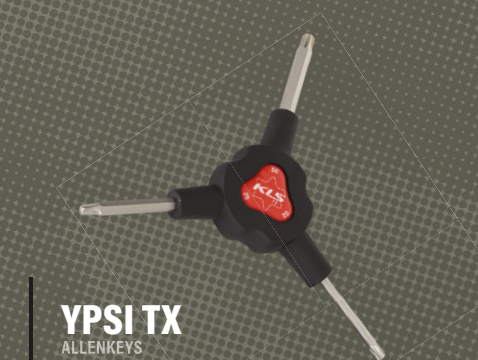

2 mm hex	2.5 mm hex	3 mm hex
----------	------------	----------

YPSI HEX BIG
ALLENKEYS

YPSI HEX big is tool with 3 allen keys in sizes 4 / 5 / 6 mm. High-quality CR-V steel. Sand blasted finished for firm grip.

4 mm hex	5 mm hex	6 mm hex
----------	----------	----------

YPSI TX
ALLENKEYS

Smart tool with 3 torx keys in sizes T20 / T25 / T30. High-quality CR-V steel. Sand blasted finished for a firm grip.

T20 torx	T25 torx	T30 torx
----------	----------	----------

HEXCODE
ALLENKEYS

Hardened chrome vanadium steel (Cr-V) keys with ball ends for up to a 30° angle of rotation
10-hex keys, includes:

1.5 mm hex	2 mm hex	2.5 mm hex
3 mm hex	4 mm hex	5 mm hex
6 mm hex	8 mm hex	10 mm hex

CARBON ASSEMBLY COMPOUND 12

1 MULTIFUNCTIONAL OIL

SOFT BRUSH 9

2 SILICONE OIL

DETAILING BRUSH 7

11 BIKE POLISH

BRUSH / CLAW 8

3 CHAIN OIL

MULTI-GREASE 6

CHAIN CLEANER 10

CLEANERS & LUBRICANTS

LUBRICATION

The ORANGE line includes various lubricants, such as chain oil, universal oil or premium grease. Products from the orange line allow you to take care of every lubrication point of your bike: from chain, through cables to every bearing and axle. High-quality ingredients and modern additives reduce friction and protect the sensitive parts of a bicycle against excessive wear and corrosion.

CLEANING

To keep the bicycle clean and shine, and ensure smooth operation of its components, you should reach for the products from the BLUE line. Gentle but very effective cleansing ingredients thoroughly remove impurities, leaving the surface free of dirt, dust and old grease, and prepare the bicycle to put on fresh lubricants.

CARE

Products from the GREY line give finishing touch after cleaning the bike to protect any painted and non-painted surfaces leaving deep shine and prevent dirt and wet from sticking.

CRYSTAL CHAIN CLEANER

Plastic body
With practical handle for easy use
Removable bristles for easier maintenance
Chain is cleaned simultaneously from 4 different sides
Rubber pad prevents leaking where chain exits the cleaner
Capacity 20 ml for cleaning fluid
Use of aggressive cleaners is not recommended (KLS BIKE CLEANER is suitable)

SILICONE OIL

Silicone Oil is suitable for oiling and preservation during repairing and maintaining bicycles, particularly shock absorbing forks (do not confuse with oils for filling shock absorbers), O-rings, rubber seals, cables, Bowden cables, and pins in gears or lever-key switches. It may also be used for general oiling.
Spray 200 ml

CHAIN OIL

As the name suggests, Chain oil is white lubricant for chains. The lubricant flows easily into the open spaces in the chain, lubricates the chain and protects it against rust. It is also suitable for O-ring chains. It doesn't contain excessive adhesive components and is, therefore, better suited for the lubrication of chains on mountain as well as highway bicycles under all types of conditions, from dust to rain.
Spray 200 ml / Applicator 50 ml

PREMIUM LUBE WHITE

Bike lube „white“ is a highly effective white grease with content of PTFE (polytetrafluoroethylene) useful for the lubrication of slide and roll bearings, hubs, heads, pedals, etc. The lubricant excels in its high resistance against water and provides a long life for all bearings.
Tube 100 g

MULTIFUNCTIONAL OIL BIO

Multifunctional Oil BIO is a biodegradable all-purpose fluid suitable for general lubrication, loosening of rusted joints, and prevention of corrosion.
Spray 200 ml / Applicator 100 ml

MULTI DEGREASER

„Multi“ degreaser is cleaner / degreaser in one. By simply spraying on the agent it quickly removes grease, oil, dirt and brake fluid. It is suitable for degreasing chains before being lubricated by Chain oil and also degreasing bearings, brake and clutch pads, and other metal components.
Spray 750 ml

CLEANING SET

Bucket with everything you need to keep your bike working and looking good all season. Contains: Bucket, 3x brush, sponge, wipe cloth, Chain oil 50 ml, Bike cleaner 500 ml, Bike polish spray 200 ml.

BIKE CLEANER

Bike Cleaner is a maintenance and cleaning agent for cleaning bicycles from mud and other contamination. Higher foaming ability ensures a lower consumption of the agent. Bike Cleaner is applied by spraying on the contaminated spots (derailleurs, pedals, hubs, frame). It is particularly suitable to clean very contaminated parts (chains, sprockets, etc.) where it adheres due to its foaming ability and thus the product consumption is lower. It does not harm paint.

Applicator 500 ml / 1000 ml

CARBON ASSEMBLY COMPOUND

Special assembly compound suitable for carbon fibre components like seatposts, stems, handlebars, carbon saddle rails etc. Suitable for carbon-carbon, carbon-aluminium and even aluminium-aluminium connections.

Volume: 30 g

Application temperature difference: -15 °C to 70 °C.

HANDCLEANER

Handcleaner is a highly effective cleansing cream that does not contain any solvents or chemicals. Thanks to the abrasive particles it can remove even the biggest dirt from hands, but it is also skin friendly. Handcleaner contains lanolin, which prevents hand skin cracking after washing.

Dose 500 g

BIKE POLISH

Bike polish is cleaner / degreaser. By simply spraying on the agent it quickly removes grease, oil, dirt and brake fluid. It is suitable for degreasing chains before being lubricated by Chain oil and also degreasing bearings, brake and clutch pads and other metal components.

Spray 200 ml

E-BIKE CLEANER ^{NEW}

Highly effective cleaning agent for cleaning and maintenance of bicycles, specifically adapted for electric bikes. It removes dirt, mud, and grease from all bicycle surfaces with consideration for the wiring and electronic devices of the electric bike drive units. Its even higher foaming capacity significantly prolongs its effectiveness and reduces its consumption.

E-Bike Cleaner is biodegradable, does not damage bicycle paint, carbon parts, or brake pads.

Usage: cleaning agent for bicycles and electric bikes.

KLS CONTROLSTOP V-01 CARTRIDGE

PSC - power / safe / control technology - shorter braking distance
 All-weather compound
 - dry conditions (red compound)
 - wet conditions (grey compound)
 Antisqueal design
 Excellent rim cleaning profile

BRAKE PADS KLS D-14 / D-16 / D-18 RADIATOR, ORGANIC

BRAKE PAD WITH COOLING FIN

Replaceable disc brake pad with detachable cooling fin. Ideal for riders who enjoy longer descents. Cooling fins dissipate heat more effectively and reduce fading of brakes. Brake pads can be replaced by KLS D-14 / D-16 / D-18 RADIATOR CARTRIDGE, ORGANIC. Cooling fins can be reused.

D-14 COMPATIBILITY WITH SHIMANO BRAKES:

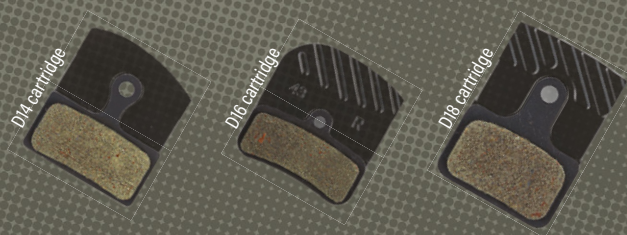

BR-M9000, BR-M9020, BR-M987, BR-M985, BR-M8100, BR-M8000, BR-M785, BR-M7100, BR-M7000, BR-M675, BR-M666, BR-M6100, BR-M6000, BR-M615, BR-S7000, BR-S700, BR-CX77, BR-RS785, BR-R785, BR-R517, BR-R317

D-16 COMPATIBILITY WITH SHIMANO BRAKES:

BR-M8120, BR-M8020, BR-M7120, BR-M6120, BR-M820, BR-M810, BR-M640, BR-MT520, BR-MT420

D-18 COMPATIBILITY WITH SHIMANO BRAKES:

BR-M9100, BR-M9110, BR-M8110, BR-R9170-F, BR-R9170-R, BR-R8070-F, BR-R8070-R, BR-R7070-F, BR-R7070-R, BR-4770-F, BR-4770-R, BR-RS805-F, BR-RS805-R, BR-RS505-F, BR-RS505-R, BR-RS405-F, BR-RS405-R, BR-RS305-F, BR-RS305-R, BR-U5000-F, BR-U5000-R, BR-RX810-F, BR-RX810-R, BR-RX400-F, BR-RX400-R

SPARE DISC BRAKE PADS KLS D-14 / D-16 / D-18 RADIATOR, ORGANIC (PAIR)

SPARE DISC BRAKE PAD FOR KLS D-14 / D-16 / D-18 RADIATOR, ORGANIC

Brake pad with thinner back plate which is strengthened with steel, allows to use cooling fins (not part of the packaging). Made from organic compound with added kevlar for stable breaking power. Spare brake pads should be used only as replacement for used BRAKE PADS KLS D-14 / D-16 / D-18 RADIATOR, ORGANIC with cooling fins!

SINTERED METALLIC PAD HIGH FRICTION COMPOUND

- Durable for heavy duty use
- High working temperature
- Consistent braking power and very limited fading during long descends with intensive braking
- Excellent performance in wet and muddy condition

ORGANIC RESIN PAD SOFT COMPOUND REINFORCED BY KEVLAR

- Quiet
- Low working temperature
- Higher modulation at the lever
- Perfect for daily use in all-weather condition

KMC eBike chains are compatible with BOSCH drivetrains as well as most of the other eBike drivetrains like SHIMANO, PANASONIC, etc.

KELLYS BICYCLES IS OFFICIAL KMC DISTRIBUTOR

Foundation of KMC began in 1977 in Taiwan. Since then, KMC has been concentrating on chain design and production for nearly 40 years. KMC sales reach all over the world. KMC is the world leader in chain manufacturing. Based on its bicycle chain manufacturing technologies, KMC also produces a variety of other chain products, like automobile timing chains, motorcycle chains, and industrial chains. KMC invests a lot in their R&D. KMC has broken their past achievement records: the first chain manufacturer to release a Super Lightweight chain, to offer Color chain (including Titanium-Nitride coated chain and Patriot chain), to use Diamond-Like Coating (DLC) reduced-friction technology on the chain, and to achieve the chain industry's first Carbon Footprint assessment certificate to show its commitment to eco-friendly manufacturing.

*CAP GUARD PROTECTION- is special nylon fabric in the area of the tread, which increases the resistance of the tire against punctures while maintaining a low weight

**LIGHT GUARD PROTECTION- is a protective layer made of a special adhesive mixture called „PTR“ with a thickness of 1.2 mm, which provides extra protection against tire puncture

***KEVLAR INSIDE PROTECTION- is kevlar belt reinforcement of thread area for maximum protection while maintaining a low weight

NOTUBY II NEW

TUBELESS TIRE REPAIR KIT

NOTUBY II is a practical repair kit for punctures. It includes threading needle with wicks, CO2 adapter and threaded bracket for CO2 cartridge. The wicks are securely stored in a waterproof case along with a threading needle. It can be attached to your bicycle by two screws below bottle cage. Includes: 3pcs wicks 3.5*50 mm and 3pcs wicks 1.5*50 mm

NOTUBY

TUBELESS TIRE REPAIR KIT

NOTUBY is a compact repair kit for punctures, that can save your ride. It can be used to seal holes that the sealant alone cannot seal. The wicks are securely stored in a waterproof case along with a threading needle. 5 pcs of wicks included

SEALREFILL

SEALANT SYRINGE

SEALREFILL is a syringe suitable for filling tubeless systems with sealant. It will also serve well to check the sealant level in the tires. The enclosed tubes are narrow enough to be pushed through the valve. Includes a silicone hose, a valve and two hard tubes.

SEALJECTOR

SEALANT SYRINGE

SEALJECTOR is syringe suitable for application of tubeless sealant into tires. Includes soft silicon hose.

INSERT BRO

TUBELESS VALVE SET

Tubeless valves INSERT BRO are made of light aluminium alloy. Comes in set of two with rubber sealing, alloy O-ring and caps with in-built tool for valve core removal for easy sealant. It can also serve as spoke wrenches (3.30 and 3.40 mm). Valves are compatible with most of the common rims and tire inserts.

COLORS black, blue, gold, green, orange, purple, red
SIZE 44 mm

TUBELESS VALVES SET

Made of aluminium alloy
Packaging include rubber sealing and aluminium O-ring
Removable valve core for easier sealant filling
Valve cap with hole designed to remove valve core for easier sealant filling
SIZE 40 mm, 60 mm

MILKYSEAL

TUBELESS SEALANT

Tubeless sealant KLS MILKYSEAL is designed to prevent punctures in the tread area on tubeless tires that are up to 6 mm. Recommended amount for one wheel: 60 - 120 ml for XC tires and 120 - 180 ml for AM, FR and DH tires. Sealant lasts for 3 - 12 months (depends on weather conditions and frequency of use). The sealant is compatible with CO2 and does not freeze, so it is suitable for all-season use. Contains latex.
SIZE 1L

MILKYSEAL PRO NEW

TUBELESS SEALANT

The sealant Milkyseal PRO is perfect for race riders who require immediate sealing of even relatively big punctures. With its innovative formula with Micro Fibre particles, it effectively seals tires and all holes up to 6+mm. Punctures are sealed quicker keeping pressure in tires. It's suitable for road tires with pressures up to 8.5 Bar and downhill riding with pressures below 1 Bar. The sealant remains effective for 6-9 months, meaning less frequent reapplication. Moreover, it's environmentally friendly as it does not contain any latex or amonia.
SIZE 1L

TUBELESS TYRE REPAIR KIT

Repair kit suitable for all tubeless tyres
Fixes bigger holes, that sealant cannot fix
Set for repairing tubeless tires consists of:
5 stripes of 10 cm long repair knots with diameter 3.5 mm
5 stripes of 5 cm long repair knots with diameter 1.5 mm
screw drill & plug tool
small knife ideal for cutting off excessive knot material
5 ml of rubber solution
instruction manual

SIZE CHARTS

CASUAL/BIKE WEAR

HEIGHT:

Measure from the top of the head to the floor while standing upright.

CHEST:

Measure around your chest, with arms relaxed down at sides. Measure around the fullest part of your chest, make sure the measuring tape will go around your shoulder blades. Keep the tape parallel to the floor.

WAIST:

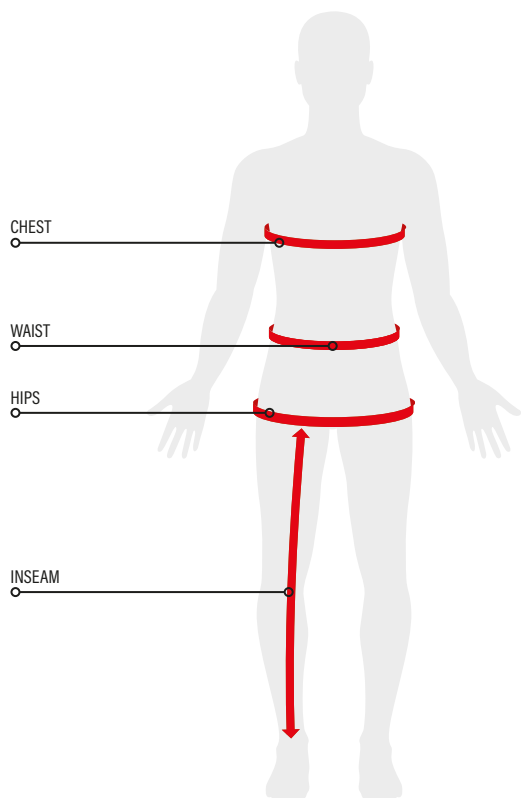

Measure around natural waistline, keeping the tape a bit loose.

HIPS:

Measure with your feet together, keep tape straight and measure around the widest part of your hips.

INSEAM:

Measure inside of leg from the crotch to the ankle bone.
